

**Press Release for Immediate Use**

**Evolution Help Secure Major Deal**

Evolution Business and Tax Advisors LLP have successfully played their part to secure a deal to bring up to 400 jobs to Teesside.

The recent announcement that TAG Energy Solutions had secured finance to create the UK's first offshore windmill tubular foundation manufacturing facility for North Sea wind farms was welcome news for the area.

Behind the scenes Evolution's Accounting and Advisory team has been busy providing management accountancy support to secure funding for the deal allowing the company to meet its deadline.

Evolution has a long-standing business relationship with the company, which has seen it evolve from oil and gas to the renewable energy sector.

Andrew Rowe, Senior Manager at Evolution, said: "The team have been delighted to play their part in securing the contract. The development of the new £20 million facility presents the area with a tremendous opportunity and as a local business we are delighted to have played our part in securing the contract."

Alex Dawson, Chief Executive of TAG Energy Solutions, said: "The support and advice from Evolution has been excellent. We are particularly appreciative of their clear understanding of the business demands during this process and the commitment made in helping us achieve the desired result."
