### Evolution evolves with move to business park

One of the North East's leading accounting, tax and business recovery advisory groups has moved onto Wynyard Park – into a development with the same name as the firm itself!

Evolution Business and Tax Advisors LLP was established in July 2010 as a result of a management buy-out of the North East operation of Vantis Plc.

Since then, the new LLP has continued to operate from its three inherited North East offices - in Hartlepool, Middlesbrough and Darlington. Now, the majority of operations have been consolidated into one central location in the Evolution development on the prestigious business park near Wynyard.

Ray Priestman, one of the leading members of Evolution LLP said that, from a cost perspective, it made commercial sense to have one central location.

“It will also enhance the working environment and lead to greater efficiencies and better utilisation of staff as everyone will be under one roof,” he explained.

The Evolution complex at Wynyard Park offers exceptional new office suites on a freehold or leasehold basis. Set around a landscaped courtyard, its offices are contemporary, innovative and fitted out to a high specification.

Evolution LLP intends to retain its Hartlepool office but the majority of its 67 employees will be based at Wynyard.

Ray said: “We have a strong relationship with Wynyard Park having held a number of events at the Wynyard Rooms which we have been very pleased with. The location has excellent transport links, parking and offers a pleasant business environment. Matt Johnson, Wynyard Park’s Development Manager has helped to make our move a very straightforward process.”

Evolution LLP focuses on helping owner-managed businesses and high net worth individuals to successfully achieve their personal and business aspirations. Services are provided locally by experienced professionals and specialist teams who offer comprehensive sector knowledge and product expertise in such areas as business planning, raising finance and grant advice for new and growing businesses.

It also offers advice and assistance in buying and selling businesses, as well as audit, accounting, business advisory, tax planning and compliance services.

Wynyard Park’s CEO Chris Musgrave was delighted to welcome Evolution LLP to the business park as a tenant as opposed to a client of the Wynyard Rooms.

“It just goes to prove that it is important to have excellence in all aspects of your business,” he commented. “Whatever contact people have with you, they need to be impressed by the organisation and want to return to it or, in the case of Evolution LLP, choose to benefit from other services on site.”

**Notes to Editors:**

- Wynyard Park is a 700-acre development located at a key junction of the A19 situated between Stockton and Hartlepool and 5 miles north of Middlesbrough.
- The site was created following the amalgamation of the Wynyard One site and the neighbouring Wynyard Business Park site at the end of August 2005.
- Further information is available at [www.wynyardpark.com](http://www.wynyardpark.com)
